Jinawong Jino

SENIOR FULL-STACK ENGINEER

10+ years shipping web products end-to-end — now also building the AI-agent tooling that lets teams ship faster.

WHAT I'VE BUILT

GetPod platform

Next.js 15 · React 19 · Go · pnpm + Turborepo

A cloud dev-environment platform. **Top-3 contributor (~25% of ~9.5k commits)**: web dashboard, admin console, and Go APIs for VMs, an AI-model proxy and Stripe billing.

Electron desktop app

Electron · React 19 · TypeScript

The GetPod desktop client. **Main contributor (57% of commits)**. Security-first: sandboxed renderer, scoped IPC and an audit trail for agent computer use.

Multi-agent AI platform

Claude Code · MCP · Telegram

My self-hosted fleet of 8+ specialized agents on Telegram, with background workers, MCP servers and custom skills.

CI/CD + Claude Code review

GitHub Actions · Docker · AWS

26 GitHub Actions workflows: PR checks, Docker builds and AWS deploys, with Claude Code PR review. ~230 test files added.

EXPERIENCE

Jun 2022 – Present	**Senior Full-Stack Engineer** · Crown Labs GetPod platform and desktop app across a TypeScript + Go monorepo. Kittycorn (DeFi): NestJS + GraphQL backend, Next.js dashboard, Uniswap V4 subgraph.
Jan 2026 – Present	**AI Agent Systems** · Independent Self-hosted multi-agent platform on Claude Code; video and content automation with ffmpeg, the Facebook Graph API and ElevenLabs.
Dec 2021 – May 2022	**Full-stack Developer** · nuvo Developed and maintained full-stack web applications across frontend and backend in a fast-paced product team.
Mar 2016 – May 2022	**Web Developer → Senior Web Developer** · 20Scoops CNX (Chiang Mai) — product-engineering arm of Hamburg-based 20Scoops Venture Capital Built web products for German startups in the venture portfolio, collaborating remotely in English with German founders and product owners. Handled architecture decisions and code reviews, and mentored developers.

TOOLBOX

FRONTEND	React, TypeScript, Next.js, Vite, Electron, Tailwind
BACKEND	Go, Node.js, NestJS, GraphQL, PostgreSQL, Stripe
INFRA	Docker, GitHub Actions, AWS, Cloudflare, Linux
AI	Claude Code, MCP, multi-agent orchestration

ALSO

claude-gateway — contributor, 53 commits on computer use, MCP and orchestration.

Kotlin event-sourcing demo — Ktor + GraphQL, append-only event store, projections, replay; 24 tests (link pending).

Bachelor's Degree, Computer Information System, RMUTL (2012–2016) · Thai (native) · English (professional)
